(See Rule 13)

LICENCE TO DEVELOP COLONY

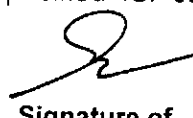

This licence is granted under the Punjab Apartment and Property Regulation Act, 1995 to M/s. PACL India Ltd. having its headquarters at New Delhi, for developing a land as residential colony namely Pearl's City at Bathinda Tehsil Bathinda Distt. Bathinda.

This licence is granted for setting up a colony namely Pearl Township measuring 65.75 acre in phase-wise and as per the instructions issued by the Govt. of Punjab vide no 17/17/2001-5H82/part file/157 dated 13-1-2009 subject to the following conditions :-

- i) The design and specifications of the development works to be provided in the colony shall include:
 - a) metalling of roads and paving of footpaths as per Public Works Department specifications;
 - b) turfing and plantation of trees; and
 - c) street lighting.
- ii) The licence shall enter into an agreement with the competent authority in Form APR IV within a period of thirty days of the grant of the licence;
- iii) The promoter shall deposit with the Competent Authority service charges under section 32 of the Punjab Apartment and Property Regulation Act, 1995.
- iv) In the layout plan of the colony, the land reserved roads, open spaces, schools, public and community building and other common uses shall not be less than 45% percent of the gross area of the land under the colony;
- v) The licence shall not contravene the provisions of any other law for the time being in force in the area where the colony is being developed;
- vi) The promoter shall maintain a separate account in any Schedule Bank of sums taken by him from persons intending to take or who have taken by apartments or plots, as advance, towards the sale price or for any other purpose or deposit and shall disburse the money for meeting the cost development works, and shall on demand, in writing, by the competent authority, make full and true disclosure of all transactions in respect of the account;
- vii) The licence is valid for a period of three years commencing from 22-7-2009 and ending with 21-07-2012 and licence shall comply with the provisions of the Punjab Apartment and Property Regulation Act, 1995 and the rules made there under.
- ix) The promoter shall carry out and complete the development of the land in accordance with the provisions of the Urban Land (Ceiling and Regulation) Act, 1976 (Central Act 33 of 1976) and other laws for the time being in force.
- x) The road formation level will be got approved from the S.E. BDA, Bathinda before the start of work.
- xi) Plinth level will be dept min. 0.45 mtr. above the road formation level.
- xii) The electrification work will be carried as per the design and specification approved by the PSEB under their strict supervision.
- * All the work will be got carried out strictly as per PWD/BDA/MOST specification and as per provisions in the estimate.
- * Whenever the storm water drainage is to be laid in the periphery the promoter will provide the same at his own cost.
- * The layout plan will be part of the agreement.
- * All the materials to be used will confirm to is and shall be specified ISI code with latest amendments.

Place:

The Promoter will execute the agreement for the entire total land of area for which the licence is to be granted.

The promoter will develop all the entire area as per lay out plan.

The promoter will obtain the licence for the entire total land of area measuring 125.93 acre into two or more phases as per your undertaking dated 17.12.09

Promoter will pay the External Development Charges and licence fee for the rest of the phases for which the licence is to be granted by the Competent Authority BDA, Bathinda.

Promoter will obtain permission of access to road U/S 143 of the PUDA Act, 1995, from the zonal ACA before undertaking any development at the site.

Promoter will acquire further 15% of Title of the Land within six months of the issue of the licence, further 25% within further six months, another 25% within another six months and final 25% within next following six months and no sale shall be effected unless title of the land is acquired by the promoter.

Promoter will transfer free of cost the non-saleable open spaces like roads, parks etc. (Not schools & community center etc.) in favour of Govt. through PUDA or in favour of M.C. concerned before the expiry of licence or issue of the Completion Certificate, whichever is earlier. Such transfers shall be free from stamp Duty. However, onus of maintaining the open spaces including parks and roads for a period of five years from the issue of completion Certificate shall continue to remain with the promoter even after the transfer on non-saleable open spaces like roads, parks etc.

Promoter will obtain the final NOC after getting the earlier issued provisional NOC confirmed from the PSEB within 90 days of the issue of licence.

Promoter will obtain NOC from the PPCB before the expiry of licence or before the issue of Completion Certificate whichever is earlier as the terms of or present NOC is for one year only.

The licence will be governed by the Provisions of the Water(Prevention & Control of Pollution) Act, 1974 & the Air (Prevention & Control of Pollution) Act, 1981 and Rules made thereunder.

Layout plan will be demarcated at site O.K. certificate shall be furnished and in any discrepancy it should be brought to the notice of competent Authority for reconciliation within 3 months of the issue of the licence.

* Before Architecture Control of commercial sites are approved integrated zoning plans of commercial area, residential and other building shall be got approved from the Competent Authority within 2 months of the issue of the licence.

* Building plans shall be got approved from the concerned Estate Officer, BDA as per building bye-laws applicable i.e. BDA bye-laws in case of colonies outside. Municipal Limits and Municipal Committee bye-laws for colonies located with M.C.'s Bathinda, PPCB Patiala and PSEB, Patiala.

Subject: Environmental clearance for developing residential colony namely "Pearls City" at Goniana Road, Bathinda by M/s PACL India Ltd.

This has reference to your application for obtaining environmental clearance for developing residential colony namely "Pearls City" at Goniana Road, Bathinda and subsequent presentation given before the State Level Expert Appraisal Committee (SEAC) for seeking prior environmental clearance for subject cited project as required under the EIA Notification, 2006. The proposal has been appraised as per procedure prescribed under the provisions of EIA Notification dated 14.09.2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, 1-A, conceptual plan, rapid EIA study report and the additional clarifications furnished in response to the observations of the SEAC.

It is inter-alia noted that the proposal involves developing a residential colony namely "Pearls City" at Goniana Road, Bathinda. The total scheme area is 125.93 acres (50.98 hectares) and the net planned area is 125.42 acres, in which there is a proposal to develop residential and commercial plots. The total cost of the project is Rs.76 Crores. The total water requirement shall be 1678 KLD, out of which 1136 KLD shall be fresh water requirement which will be met through groundwater and 542 KLD shall be met through recycling of treated wastewater. The CGWB vide letter no. 4 (172)A-PB/PACL/NWR/S&I/2011-754 dated 26.03.2013 informed to the project proponent that quality of groundwater of the area is potable in nature for drinking and domestic purpose only after treating in a R.O. system and R.O. system will be installed by each respective plot holder. The total wastewater generation from the project will be about 1678 KLD, which will be treated in a STP of capacity 1800 KLD. The total generation of treated

[Handwritten Signature]

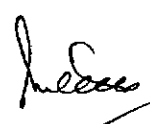

wastewater shall be 1343 KLD, out of which 542 KLD of treated wastewater for flushing purpose, 801 KLD will be used for irrigation of green area of this project. In rainy season, 542 KLD of treated wastewater will be used for flushing purpose, 76 KLD will be used for irrigation of green area of this project and remaining 725 KLD will be utilized in the nearby field for irrigation using Karnal Technology. In winter season, 542 KLD of treated wastewater will be utilized for flushing purpose, 274 KLD will be used for irrigation of green area of this project and remaining 527 KLD will be utilized in the nearby field for irrigation using Karnal Technology. There is a proposal to develop 2 acres of land area in khasra numbers 126/17 and 126/16 in Hadbast no. 160 in the revenue estate of Village Bhokhra Distt. Bathinda, as per Karnal Technology for utilization of treated wastewater. A proper pipeline will be laid down to carry the treated wastewater from STP to the said land area. The total quantity of solid waste generation shall be 7430 kg/day. The biodegradable and non-biodegradable solid waste will be segregated at source. The recyclable component of the non-biodegradable waste will be sold out to the recyclers and bio-degradable waste will be collected in green bins and then passed through organic waste converter to form manure. The total power requirement will be about 8783 KVA, which will be taken from Punjab State Power Corporation Ltd. The project proponent will install DG sets as standby arrangement of power supply. The total parking facility will be provided for 648 ECS. The used oil to be generated from DG sets will be handled and managed as per the provisions of the Hazardous Wastes (Management, Handling & Transboundary Movement) Rules, 2008. The run-off from roof top, terrace, landscape and paved area will be collected and will be imparted appropriate treatment before recharging into groundwater and for this purpose 26 no rain water harvesting pits will be provided. Total Rs.315 Lacs will be incurred as capital cost for implementation of EMP and Rs.25 lacs will be the recurring cost per annum during operation phase. The project proponent shall spent Rs.76 Lacs to carry out activities under the Corporate Social Responsibility programme.

The case was considered by the SEAC in its 38th meeting held on 02.04.2010 and the observations noticed by the SEAC in the aforesaid meeting were conveyed to the project proponent for making compliance of the same. Thereafter, the project proponent submitted the reply of the observations of the SEAC. The case was again considered by the SEAC in its 46th meeting held on 24.04.2011, wherein, it was decided to finalize "Terms of Reference" and to convey

the same to the project proponent for preparation of detailed draft Rapid EIA report. Accordingly, the 'Terms of Reference' were conveyed to the project proponent vide letter No. 20905 dated 16.05.2011 after approval of the Competent Authority. The case was again considered by the SEAC in its 49th meeting held on 07.07.2011 and the observations noticed by the SEAC in the said meeting were conveyed to the project proponent for making compliance of the same. Thereafter, the project proponent submitted the revised final rapid EIA report and case was considered by the SEAC in its 66th meeting held on 11.01.2013. After deliberation, the Committee observed that the project proponent has provided adequate and satisfactory clarifications of the observations raised by it, therefore, the Committee awarded '**Silver Grading**' to the project proposal and decided to forward the case to the SEIAA, with the recommendation to grant environmental clearance to the project proponent for development of 1041 residential and Commercial plots, in an area of 125.42 acres at Goniana Road, Bathinda subject to certain conditions in addition to the proposed measures and to obtain resolution in compliance to Office memorandum dated 12.12.2012 of the MoEF. It was also decided to recommend to SEIAA to send the case to the Govt. of Punjab, Department of Science, Technology & Environment for initiating action under the Environment (Protection) Act, 1986 due to starting the construction activities of the project without obtaining Environmental Clearance under EIA notification dated 14.09.2006.

The case was considered by the SEIAA in its 44th meeting held on 04.02.2013 and during the presentation, environmental consultant has submitted a resolution to the effect that violation of the Environment (Protection) Act, 1986 for starting of construction/development work of the project without obtaining environmental clearance under EIA notification is unintentional and will not be repeated in future, which was taken on record by the Authority. The observations noticed by the SEIAA in the aforesaid meeting were conveyed to the project proponent for making compliance of the same. In the said meeting, it was also decided by the SEIAA to send the case to the Govt. of Punjab, Department of Science, Technology & Environment for initiating action under the Environment (Protection) Act, 1986 against the project promoter/responsible persons of the promoter company for starting the construction/development work of the project without obtaining environmental clearance under EIA notification dated 14.09.2006. The case was sent to the Govt. of Punjab, Department of Science, Technology & Environment vide letter no. 874 dated 14.02.2013 for initiating action

under the Environment (Protection) Act, 1986 due to starting the construction of the project without obtaining environmental clearance under EIA notification dated 14.09.2006. The case was again considered by the SEIAA in its 46th meeting held on 22.04.2013. The Authority observed that the case stands recommended by SEAC and the Committee awarded 'Silver Grading' to the project proposal.

The SEIAA looked into the details of the case and was satisfied with the same. Therefore, the Authority decided to grant environmental clearance under EIA Notification dated 14.9.2006 to the project namely "Pearls City" for development of 1041 residential and commercial plots in an area of 125.93 acres (50.98 hectares) at Goniana Road, Bathinda, subject to below mentioned conditions in addition to the proposed measures:

PART A – Specific conditions

I. Construction Phase

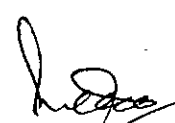

- i) "Consent to establish" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority before the start of any construction work at site.
- ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- iii) A first aid room will be provided in the project both during construction and operation phase of the project.
- iv) All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- v) Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed off after taking the necessary precautions for general safety and health aspects of people with the approval of competent authority.
- vi) Construction spoils, including bituminous material and other hazardous material, must not be allowed to contaminate watercourses and the dump sites for such material must be secured, so that they should not leach into the ground water.
- vii) The diesel generator sets to be used during construction phase should be of low sulphur diesel type and should conform to the provisions of Environment (Protection) Act, 1986 prescribed for air and noise emission standards.
- viii) Vehicles hired for bringing construction material to the site and other machinery to be used during construction should be in good condition and should conform to applicable air and noise emission standards.

- ix) Ambient noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase.
- x) Fly ash should be used as construction material in the construction as per the provisions of Fly Ash Notification of September, 1999 and as amended on August, 2003 (This condition is applicable only if the project is within 100 Km of Thermal Power Station).
- xi) Ready mixed concrete should be used in building construction as far as possible.
- xii) Water demand during construction should be reduced by use of premixed concrete, curing agents and other best practices.
- xiii) Separation of drinking water supply and treated sewage supply should be done by the use of different colours.
- xiv) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- xv) Adequate steps shall be taken to conserve energy by limiting the use of glass, provision of proper thermal insulation and taking measures as prescribed under the Energy Conservation Building Code.
- xvi) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.
- xvii) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, disposal of waste water & solid waste in an environmentally sound manner, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

II. Operation Phase

- i) The installation of sewage treatment plant (STP) and adequacy of disposal system should be certified by Punjab Pollution Control Board and a report in this regard should be submitted to the Ministry of Environment & Forests/State Level Environment Impact Assessment Authority before the project is commissioned for operation. The discharge of treated sewage shall conform to the norms and standards prescribed by Punjab Pollution Control Board for such discharges. The project proponent shall not discharge any treated wastewater into sewer or any other drain and no fresh water will be used for irrigation of green belt / gardens / horticulture purpose.
- ii) The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc. and shall maintain a record of readings of each such meter on daily basis.
- iii) Adequate & appropriate pollution control measures should be provided to control fugitive emissions to be emitted within the complex.
- iv) Adequate treatment facility for drinking water shall be provided, if required.

- v) Rainwater harvesting for roof run-off should be implemented. Before recharging the roof run-off, pretreatment must be done to remove suspended matter, oil and grease. However, no run off from gardens/green area/roads/pavements shall be connected with the ground water recharging system.
- vi) The solid waste generated should be properly collected and segregated. The recyclable solid waste shall be sold out to the authorized vendors and inerts shall be sent to disposal facility. The Bio-degradable solid waste shall be adequately treated as per the scheme submitted by the project proponent. Prior approval of competent authority should be obtained, if required. The project proponent shall make proper arrangements for management and handling of municipal solid waste till the 'Integrated Municipal Solid Management Facility' is developed by Municipal Corporation, Bathinda.
- vii) Hazardous waste/E-waste should be disposed off as per Rules applicable and with the necessary approval of the Punjab Pollution Control Board.
- viii) The green belt design along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety.
- ix) The project proponent should take adequate and appropriate measures to contain the ambient air quality with in the prescribed standards. The proposal regarding mitigation measures to be taken at site should be submitted to the Ministry of Environment & Forests/ State Level Environment Impact Assessment Authority within three months.
- x) Incremental pollution loads on the ambient air quality, noise and water quality should be periodically monitored after commissioning of the project.
- xi) Application of solar energy should be incorporated for illumination of common areas, lighting for gardens and street lighting in addition to provision for solar water heating.
- xii) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- xiii) A report on the energy conservation measures conforming to energy conservation norms finalized by Bureau of Energy Efficiency should be prepared incorporating details about machinery of air conditioning, lifts, lighting, building materials, R & U Factors etc. and submitted to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA in three months time.
- xiv) Environment Management Cell shall be formed during operation phase which will supervise and monitor the environment related aspects of the project.

PART B – General Conditions :

- I. This environmental clearance will be valid for a period of five years from the date of its issue or till the completion of the project, whichever is earlier.
- II. The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact

Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.

- III. The entire cost of the environmental management plan (i.e. capital cost as well as recurring cost) will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU after obtaining prior permission of the Punjab Pollution Control Board.
- IV. The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by mail) to the respective Regional office of MoEF, the Zonal Office of CPCB and the SPCB/SEIAA.
- V. Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the CCF, Regional Office of Ministry of Environment & Forests, Chandigarh/State Level Environment Impact Assessment Authority.
- VI. In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by State Environment Impact Assessment Authority.
- VII. Separate distribution pipelines be laid down for use of treated effluent / raw water for horticultural/gardening purposes with different colour coding.
- VIII. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest (Conservation) Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, by project proponents from the competent authorities including Punjab Pollution Control Board and from other statutory bodies as applicable.
- IX. The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Punjab Pollution Control Board. The advertisement should be made within seven days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office, Ministry of Environment & Forests, Chandigarh.
- X. These stipulations would be enforced among others under the provisions of Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, Environmental (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2005.
- XI. Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No. 460 of 2004 as may be applicable to this project and decisions of any competent court, to the extent applicable.

- XII. A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/ Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- XIII. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; PM_{2.5}, PM₁₀, SO₂, NO_x, CO, Pb, Ozone (ambient air as well as stack emissions) shall be monitored and the salinity of the soil shall be got analyzed from the NABL / MoEF accredited lab once in a year. The project proponent will display the results at a convenient location near the main gate of the company in the public domain.
- XIV. The project proponent shall comply with the conditions imposed by the CGWA in the permission granted vide letter no. 21-4(356)/CGWA/NWR/2010-185 dated 30.04.2012 for abstraction of 1425 KLD of groundwater through five tubewell only.
- XV. The project proponent shall comply with the conditions imposed in the permission for change of land use, granted by the Chief Town Planner, Punjab vide memo no. 9101/CTP(PB)/SP-432(B) dated 20.11.2008.
- XVI. The project proponent shall adhere to the commitments made in the Environment Management Plan and Corporate Social Responsibility. Rs.315 lacs/annum shall be spent on account of implementation of EMP during operation phase and Rs 25 lacs/annum shall be spent on account of recurring cost of the EMP during operation phase. The project proponent shall spent Rs.76 Lacs to carry out following activities under the Corporate Social Responsibility programme:
- Dispensary at 'Bhokhra'
 - Free medical checkup & blood donation camp thrice in a year in nearby villages
 - Bus shelter in nearby villages
 - Regular Garbage Clearance
 - Awareness program for female education
 - Solar lighting facility in nearby villages as street light & control of traffic signaling.
 - Professional course of short period for poor & helpless people in villagers
 - Facility of ambulance and maternity clinic with medical experts
- XVII. The project promoter shall develop 2 acres of land area in khasra numbers 126/17 and 126/16 in Hadbast no. 160 in the revenue estate of village Bhokhra Distt. Bathinda, as per Karnal Technology for utilization of treated wastewater on to land for irrigation and shall lay down pipeline to carry the treated wastewater from STP to the said land area. The project proponent shall not use said land area for any other purpose without the prior written permission of SEIAA, Punjab.
- XVIII. The promoter shall lay down two separate pipes for supplying fresh water and treated wastewater to each residential plot and the project proponent

shall impose a condition in the allotment of each plot holder to the effect that the plot holder shall use only treated wastewater for flushing purpose.

XIX. The State Environment Impact Assessment Authority reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.

XX. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
